Project Design Phase
Problem – Solution Fit Template

Date	27 February 2026
Team ID	LTVIP2026TMIDS41352
Project Name	ShopEZ:One-Stop Shop for Online Purchases
Maximum Marks	2 Marks

Problem – Solution Fit Template:

1. Identified Customer Problem

Busy professionals and online shoppers struggle with:

- Time-consuming product searches
- Cluttered and confusing interfaces
- Complicated checkout processes
- Lack of personalized recommendations
- Limited seller-side management tools
- Concerns about payment security

These challenges lead to frustration, cart abandonment, and reduced trust in online shopping platforms.

---

2. Target Customer Segment

- Working professionals with limited time
- Online shoppers looking for convenience
- Fashion and lifestyle buyers
- Small and medium sellers managing inventory
- First-time online buyers concerned about security

---

3. Existing Behavior Pattern

Customers typically:

- Visit multiple websites before making a purchase
- Compare prices manually
- Abandon carts due to lengthy checkout
- Avoid platforms that feel untrustworthy
- Prefer quick, simple, and secure solutions

Sellers:

- Struggle with manual order tracking
- Lack access to proper sales analytics
- Depend on multiple tools to manage inventory

---

4. Proposed Solution – ShopEZ

ShopEZ addresses these problems by providing:

- Smart product filtering and easy navigation
- Clean and responsive user interface
- Seamless checkout process
- Secure authentication and payment handling
- Seller dashboard with order tracking and analytics
- Personalized product recommendations

Template:

Customer Problem	ShopEZ Solution	Why It Works
Too many product options	Smart filtering & categorized listings	Reduces decision fatigue
Limited time	Fast and seamless checkout	Saves time
Security concerns	JWT authentication & secure transactions	Builds trust
Cart abandonment	Simplified checkout flow	Reduces friction
Seller management issues	Dedicated seller dashboard	Improves efficiency
